

Camp Atterbury Pistol Shoot

June 10, 2017

9am-4pm

Attention shooters, Outdoor Mentors is pleased to offer a unique pistol training opportunity at Camp Atterbury on June 10. This course will be held at the same pistol range the US Special Forces train on. Each lane has multiple pop-up targets that are computer controlled for speed, order, number and duration. This course will challenge even the most experienced shooters, and the difficulty will increase as the day progresses. At the end, each shooter will be given a printout detailing their progress and hit ratio. The round count will be more than 600 rounds (1000 is ideal) so bring plenty of ammo.

Safety is always paramount, and we will cover all the safety rules and procedures. Each shooter is responsible for abiding by these rules. Personalized instruction will also be given to shooters as needed. A wonderful pulled pork lunch with the trimmings will be provided.
